**“A fantastic and accessible set collection family game.”** — *Meeple Mountain*

**“... an excellent job incorporating education without diluting mechanics or gameplay.”** — *One Board Family*

**Fossil Canyon** is a family-oriented set-collection card game developed in collaboration with the Field Museum of Chicago. Fossil Canyon features **multiple ways to play**, including a competitive game for 2-6 players and a cooperative/solo game for 1-4 players. In both, you are a fossil-hunting paleontologist with the goal of constructing complete dinosaur skeletons that attract visitors to your museum. Endgame bonuses reward the theme of your museum, and you can enhance your museum's reputation through groundbreaking research.

Fossil Canyon uses a **unique jigsaw-puzzle scoring method**, where each skeleton you add to your museum is represented by a puzzle piece whose length is proportional to its value. No adding victory points or moving pawns to keep score; the lengths of your puzzle-museums show who is winning! (Plus you get a **bonus puzzle** on the backs of the scoring pieces!) Kids love the dinosaur theme, “digging” through the cards, and the jigsaw-puzzle scoring. Adults enjoy the strategic elements of the game, quick pace, and beautifully-illustrated cards. And parents appreciate the **educational content** from the Field Museum—including a companion booklet about the science behind the game.
